

Lake and mountain in the Jungfrau Region

Summer hiking pleasure

LAKE AND MOUNTAIN IN THE JUNGFRAU REGION

The world-famous triumvirate of the Eiger, Mönch and Jungfrau crowns the region and invites you to enjoy summer hiking.

In the middle of this mountain world, you will cross the Jungfrau Region in 5 magnificent stages. Start in Meiringen, the junction of important pass routes. The wide plain between Meiringen and Brienz has its own fascination. Dark forests, wild waterfalls: Here the Bernese Oberland has been endowed with the «most Swiss landscape in Switzerland».

Distance trekking becomes possible without much organisational effort. Individually on the road and yet well looked after.
